by GRUPA

## Wall Medium Lamp Assembly Cable and Plug

1. Unscrew the diffuser (A) while holding the metal ring (B).

2. Remove the wall mounting (D) by unscrewing two screws from the lamp body (C).

3. Mount the wall mounting to the wall with two appropriate screws and plugs. Always use correct screws and plugs for the mounting surface.

4. Attach the lamp body back to the wall mounting.

5. Insert the light bulb then gently mount the diffuser screwing it back to the metal ring.

## Important

The safety of this product can only be guaranteed if these instructions are observed, during both installation and use. We advise to keep these instructions.

If the product requires installation, it should be performed by a qualified electrician.

This luminaire must be connected to a grounding electrical system. Always turn off power to the system before starting installation work. Whenever acting on the luminaire (i.e. changing the light bulb), ensure that the power supply has been switched off.

Different materials require different types of fittings. Always choose screws and plugs that are best suited for the material on which you are installing the luminaire.

## Warning

This product has been carefully handmade and due to the nature of such work please allow slight variations in the surface of the material.

This product is for indoor use only. Do not immerse this product into water.

Always pay attention to the luminaire balance, do not place or install the luminaire on uneven surfaces.

Never touch the light bulb when the luminaire is turned on, or shortly after it is turned off, because it can be hot and can cause burns. Do not touch the inner surfaces of the luminaire that may be hot.

Grupa guarantees that the luminaire will work properly only with the light bulb provided with the luminaire. Should you exchange the light bulb, we suggest to use the same type as provided with the luminaire.

Regularly check that there is no damage to cables and other parts.

If the external cable of this luminaire is damaged, it must be exclusively replaced by the manufacturer or its authorized service agent or similar qualified persons in order to avoid a hazard.

Do not disassemble this product.

Grupa declines all responsibility for products that are modified without prior authorization.

## Cleaning

Powder-coated surfaces should be cleaned with aqueous solutions made from pH-neutral detergents or cleaning products and soft, non-abrasive cloths, rags or industrial cotton batting.

Always clean metal surfaces gently and without scrubbing so that the surface is not scratched. Never use cleaners containing granular substances, acetic acid or citric acid.

## Environment

Do not throw this product in regular household trash but in a proper waste disposal that is suitable for similar electrical appliances.

## Feature

Rotate dimmer switch to adjust light intensity.
