PEBBLES
pendant large

Design by
Boris Klimek

All Bomma products are hand-made
from mouth-blown lead-free crystal.
Therefore any small bubbles, non-melts
and ir-regularities in the glass are both
proof and a characteristic feature of this
traditional craft.

The Pebbles Collection is made by
underlying colored glass technology.
Thanks to the manual process of blowing
underlay glass, each piece is an original.
Individual products may vary slightly in
intensity, hue or even color. This is an
accompanying characteristic of the
traditional underlay glass technology.
