Description

The Byok Squadrone is a reading lamp characterised by its simple and functional design. Due to the rotatable and tiltable base joint and the upper universal joint, the Squadrone is very flexible.

Moreover the upper aluminium part of the lamp arm is turnable on its own axis. Different surfaces are offered with this lamp. This lamp is dimmed with gesture control. During dimming, the light takes on a warmer colour, changing the light colour of the LEDs from 2,700 Kelvin extra warm white to 2,100 Kelvin extra warm white.
