Flying Flames Set 3

Downlights

- black
- chrome

Elemente

- black
- white
- red

Technical details

Country of Manufacture	 Germany
Manufacturer	Ingo Maurer
Designer	Moritz Waldemeyer & Ingo Maurer
protection	IP20
Scope of delivery	LED
material	aluminum, metal
height adjustment	height determinable
dimming	integrated Pushbutton dimmer
LED	inclusive
Color temperature in Kelvin	2,700 extra warm white
system performance	7 x 0,6 Watt (14 x 128 LEDs) + 2 x LED 7 Watt
light distribution	room light
Dimensions	B 40 cm L 114 cm

Description

The Ingo Maurer Flying Flames Set 3 combines seven black, white or red LED candle elements with two black or chrome downlights. The light of the elements is reminiscent of candlelight. As light source are LED installed. An element board contains two displays with 128 LEDs each and a total of 0.6 watts. The downlights have each a power of 7.5 watts. Both the LED candle elements and the downlights are attached with magnets to a canopy measuring 114 x 40 cm. The canopy has a height of approximately 5 cm.

The height of the elements is 43 cm, their width 3 cm. With an integrated button on the board, the elements can be dimmed separately. The downlights are 12 cm high and can also be infinitely dimmed via an integrated touch dimmer. A memory function record the last selected dimming setting of the downlights. The cable length of the elements is 200 cm, that of the elements 250 cm. If necessary, the cables are height determinable.

Another combination of elements and downlights is also possible for this pendant lamp. There are offered two more sets with fewer elements and partly only one downlight. In addition, on request it is also possible to create an own Flying Flames: with three to ten elements, one to three downlights and various canopies. The lamp is also available as a single pendant lamp One New Flame.
