Description

The Foscarini Birdie Lettura can be used as a reading lamp. First time in 2011 the styling of the designers Ludovica & Roberto Palomba Foscarini was implemented. The Birdie Lettura is available in the surfaces white, copper, graphite and grey. The lamp shade ensures a good illumination of the underlying surface and an efficient reflection upwards. This lamp is equipped with a compact fluorescent lamp with max. 25 Watt or a halogen lamp with a maximum of 150 watts. An on-off switch is integrated on the supply line. An LED version of the lamp is also available.
