Description

The Ingo Maurer 2 x 18 x 18 is a ceiling light, which can also be used as a wall light. It is flexibly adjustable by means of two ball joints with which the shades can be aligned as desired. The white shades can also be adjusted independently. The lamp is equipped with two LEDs. The light is emitted indirectly to the ceiling or the wall.

Depending on the setting of the shades, the 2 x 18 x 18 has a projection between approx. 40 and 80 cm. The wall and ceiling light can be dimmed on site. It is a double version of the 18 x 18, which has only one adjustable shade, and was designed in the year 2016 by Ingo Maurer and his team.
