

Luceplan

Hope Suspension 200

Technical details

| | |
|-------------------------------------|---|
| Country of Manufacture |  Italy |
| Manufacturer | Luceplan |
| Designer | Paolo Rizzatto |
| Designer 2 | Francisco Gomez Paz |
| Year of design | 2009 |
| Protection class / IP rating | IP20 |
| Contents of the package | Leuchtmittel/Bulb |
| Diameter in cm | 200 |
| material | polycarbonate, steel |
| surface | transparent |
| cable length | 150 - 930 cm |
| Height adjustment | height determinable |
| dimming | on site dimmable with a leading edge dimmer |
| Base / Socket | E27 |
| Color temperature in Kelvin | 2,800 warm white |
| system performance | 5 x 250 Watt (max.) |
| Total luminous flux in lm | 10,620 |
| light distribution | indirectly |
| Dimensions | H 90 cm Ø 200 cm |

Description

The Luceplan Hope Suspension 200 is the largest light of its kind with a height of 90 cm and a diameter of 200 cm. Numerous Fresnel lenses are attached in pairs to the support structure of the lamp and produce impressive reflections on the walls as they break the light like glass.

The light can be dimmed on site. It has a cable with a standard length of 930 cm, which can be shortened if necessary. The designers Paolo Rizzatto and Francisco Gomez Paz created the pendant lamp, modeled on the famous Hope Diamond, one of the most expensive diamonds in the world. This lamp is on offer also in several other sizes. The Hope collection has already received various design awards, including the Compasso d'Oro and the Red Dot Design Award.
