

Ingo Maurer

Lucellino Doppio LED

Technical details

Country of Manufacture	 Germany
Manufacturer	Ingo Maurer
Designer	Ingo Maurer
Year of design	2018
Protection class / IP rating	IP20
Contents of the package material	LED Goose-feather wings, metal
dimming	on site dimmable with a trailing edge dimmer
Base / Socket	E27
LED	inclusive
Colour Rendering Index	>90
Color temperature in Kelvin	Dim to warm
canopy dimensions	15 cm
bulb exchange	on site itself
system performance	2 x 5 Watt
Total luminous flux in lm	760

Description

The Ingo Maurer Lucellino Doppio LED has two light arms. Each lamp arm is equipped with an LED illuminant with a power of 5 watts. On the sockets of the LED bulbs are attached wings made of real goose feathers, which make this lamp something very special. Goose feathers are the trademark of the popular Ingo Maurer Lucellino collection. The name of the lamp is a mixture of "Luce", which means "light" in Italian, and "uccelino", which means "little bird" in Italian. This lamp can be mounted on the ceiling or on the wall. The transformer is integrated in the wall / ceiling mounting. On-site dimming is possible. When dimmed, the Dim to warm technology changes the light colour of the lamp to a warmer tone (from 2,700 Kelvin to 2,000 Kelvin extra warm white).
