

Anglepoise

Original 1227 Desk Lamp

Oberfläche

- chrome
- black
- grey
- green
- white

Technical details

Country of Manufacture	 United Kingdom
Manufacturer	Anglepoise
Designer	George Carwardine
Year of design	1935
protection	IP20
Scope of delivery	LED 230 Volt
Projection in cm	72
material	aluminum, cast Iron, Textile
cable length	200 cm
dimming	dimmable on site
socket/light fixture	E27
switchability	on the lead
Power (max. Watt)	20 Watt
LED	inclusive
Shade diameter	14 cm
Shade height	16 cm
lamp stand dimensions	length 15, width 15 cm
light distribution	directly
Dimensions	H 59 cm

Description

The Anglepoise Original 1227 Desk Lamp is a particularly flexible table lamp thanks to tension spring technology. Its lamp arms are individually adjustable by constant tension spring technology, whereby the light distribution can be precisely adjusted again and again. The lamp shade can be tilted and rotated. Due to the tension spring technology, the lamp arms and shade remain in any set position.

The Original 1227 Desk Lamp was launched by Anglepoise in 1935 and has retained its iconic design to this day. British industrial designer George Carwardine developed tension spring technology for this table lamp, which is still in use today. The lamp arms and lamp shade are made of aluminum, the lamp base of cast iron with a steel cover. The desk lamp is available in the surfaces jet black, linen white, dove grey, sage green and bright chrome. The light can be operated with an on/off switch on the supply line. LED retrofit or compact fluorescent lamps can be used as light sources.
