

Vibia

Pin 1686

Oberfläche

- black
- creamy white
- green
- white

Technical details

Country of Manufacture	 Spain
Manufacturer	Vibia
Designer	Ichiro Iwasaki
Year of design	2016
protection	IP20
Scope of delivery	LED
Projection in cm	30
material	aluminum, polycarbonate, stainless Steel, zinc
switchability	On the wall bracket
LED	inclusive
Colour Rendering Index	>90
Luminous flux in lm	970
Color temperature in Kelvin	2,700 extra warm white
Shade diameter	6 cm
system performance	2 x 4.5 Watt
Dimensions	H 70 cm

Description

The Vibia Pin 1686 wall lamp has two lamp arms, one vertically upwards and one horizontally extended arm. The lamp head of the left vertical arm can be rotated in both directions at an angle of 45 degrees. It can be tilted outwards by 45 degrees. The right, horizontally extended lamp arm can be rotated to the side by an angle of 150 degrees. The head of this arm can be rotated about its own axis by 350 degrees. It can be raised by 45 degrees and lowered by 35 degrees. The wall light is offered in the surfaces black, white, green and cream-white. All versions are matt lacquered. The on/off switch is integrated on the wall bracket.

The Pin 1686 is the right version of two wall lights, i.e. this version has the horizontal arm on the right side. It is therefore well suited for mounting on the right side of the bed. In addition to this right version, a left version is also available, Pin 1685 with the horizontal arm on the left side.
