Technical details

Country of Manufacture	 Spain
Manufacturer	Vibia
Designer	Arik Levy
Year of design	2016
protection	IP20
Scope of delivery	LED
Projection in cm	410
material	aluminum, carbon fiber, methacrylate, stainless Steel
cable length	250 cm
height adjustment	height adjustable
dimming	Dimmer at lamp base
LED	inclusive
Colour Rendering Index	>90
Luminous flux in lm	5,076
Color temperature in Kelvin	2,700 extra warm white
system performance	4 x 9 Watt
Dimensions	H 425 cm

Description

The Vibia North 5625 floor lamp has four lamp arms, each with a lamp shade. The lamp arms are of different lengths and extended in different directions. The design of the North collection by Arik Levy is very innovative, dynamic and flexible. The height of the lamp shades can be precisely adjusted during installation to direct the light where it is needed. Even after installation, the height of the lamp shades can be modified if necessary. The North 5625 is available in the following surfaces: white, black, beige and blue. All surfaces are matt lacquered. The lamp can be mounted with or without plug. A dimmer is integrated in the centre of the base.
