

Vibia

Guise 2260

Technical details

Country of Manufacture	 Spain
Manufacturer	Vibia
Designer	Stefan Diez
Year of design	2018
protection	IP20
Scope of delivery	LED
Depth in cm	3
Diameter in cm	54
material	aluminum, borosilicate
cable length	300 cm
dimming	sensor dimmer
Wattage	10 W
LED	inclusive
Colour Rendering Index	>90
Luminous flux in lm	445
Color temperature in Kelvin	3,000 warm white
Dimensions	Ø 54 cm

Description

With the Vibia Guise, Stefan Diez has discovered a new potential use for LED technology in contact with matter: The light emanates from the piece of glass, while the source remains invisible. With this approach Guise achieves a magical effect and at the same time is fully functional. Because of the transparency of the glass when switched off, the lamp almost disappears. When switched on, it expresses a luminous and almost magnetic presence.

The wall lamp version with a different formal expression features a glass disc that gives off a perimeter glow where the LED light source is also hidden. When turned off, it becomes fused with its background, when on, it evokes a solar eclipse. Vibia presents a wall lamp that integrates the LED light with the glass and making it pass through in such a way that it becomes invisible and then allowing it to appear out of nowhere. The Guise 2660 has a diameter of 54 cm.
