Description

The Stilnovo Tablet P1 is a pendant lamp with a rectangular, minimalist shape and a swivelling module. Available in white or black surfaces, the aluminum body frames a 350° adjustable module of the same material, with an LED source shielded by a polycarbonate diffuser. It is therefore possible to choose the orientation of the light, either direct or indirect. Steel cables also act as conductors, for an even more minimal aesthetic. The steel cables can be attached to the ceiling with the supplied fittings and thus set off from the canopy. This lamp can be dimmed on site and can also be dimmed with an optionally available Casambi module via Smartphone App.
