

Vibia

Guise 2262

Technical details

| | |
|-------------------------------------|---|
| Country of Manufacture |  Spain |
| Manufacturer | Vibia |
| Designer | Stefan Diez |
| Year of design | 2018 |
| Protection class / IP rating | IP20 |
| Contents of the package | LED |
| Depth in cm | 3 |
| Diameter in cm | 92 |
| material | aluminum, borosilicate |
| cable length | 300 cm |
| dimming | sensor dimmer |
| Wattage | 17.2 W |
| LED | inclusive |
| Colour Rendering Index | >90 |
| Luminous flux in lm | 897 |
| Color temperature in Kelvin | 3,000 warm white |
| Dimensions | Ø 92 cm |

Description

The Vibia Guise 2262 is a wall lamp with a diameter of 92 cm. The designer Stefan Diez uses a glass disc with a hidden LED to create a ring of light around the lamp when the lamp is switched on. The light source itself remains invisible. When switched off, the lamp almost fuses with the background. The wall light can be dimmed via an optical sensor and is connected via a cable with plug.
