

Vibia

Structural 2615

Oberfläche

- dark grey
- light grey

Technical details

Country of Manufacture	 Spain
Manufacturer	Vibia
Designer	Arik Levy
Year of design	2018
protection	IP20
Scope of delivery	LED
Depth in cm	10
material	aluminum, polycarbonate
dimming	1-10V dimmable
LED	inclusive
Colour Rendering Index	>90
Color temperature in Kelvin	3,000 warm white
system performance	2 x 6 Watt
Total luminous flux in lm	1,513
Dimensions	H 120 cm L 180 cm

Description

The Vibia Structural 2615 is a wall light that marks coordinates with a rectilinear language, connects points of light in space, relates planes and underlines the architectural dimension. Indirect lighting and composition based on volumes clarify light and shade. Structural lamps were created for Vibia by the designer Arik Levy. A collection of wall lamps that combine direct and indirect LED light through cubic volumes that form sculptures integrated into the architecture of each space. This wall lamp is offered in the surfaces light grey and dark grey. Both versions are matt lacquered. On request, this light is also available with a colour temperature of 4,000 Kelvin white. It is also offered as a DALI dimmable version or as a version dimmable with a Casambi module via Smartphone App. The lamp with Casambi module can be operated via smartphone or tablet using the Casambi app via Bluetooth. Casambi technology also offers the option of switching the lamp on at specific times via a timer.
