

Catellani & Smith

Ciclotalia F

Technical details

Country of Manufacture	 Italy
Manufacturer	Catellani & Smith
Designer	Enzo Catellani
Year of design	2018
protection	IP20
Scope of delivery	LED
material	brass, glass
dimming	integrated dimmer
Wattage	5 W
LED	inclusive
Colour Rendering Index	80
Luminous flux in lm	600
Color temperature in Kelvin	2,700 extra warm white
lamp stand dimensions	length 21, width 21 cm
bulb exchange	at the manufacturer / at the factory
Dimensions	H 140 cm

Description

The Catellani & Smith Ciclotalia F is a floor lamp with joints at the lamp head and at the lamp base, over which the lamp can be adjusted again and again. The floor lamp is completely made of untreated brass, which can change over time and cause an intended oxidation effect. The light of the LED light source is bundled by a frosted glass lens. The light is maximum 140 cm high and has a square base measuring 21 x 21 cm. This floor lamp can be dimmed and switched via a touch dimmer on the head. A memory function saves the last brightness level set and automatically selects it the next time the power is turned on. The design is a reinterpretation of the Ciclocina lamp series created by Enzo Catellani in 1989.
