## **Description**

The Vibia Tempo 5778 is a pendant lamp with a mouth blown glass diffuser. The diffuser is made of oval shaped opal glass and has a diameter of 24 cm at its widest point. An LED with a colour temperature of 2,700 Kelvin extra warm white is integrated as a light source. On request, this lamp is also available with a colour temperature of 3,000 Kelvin warm white or 4,000 Kelvin white. The pendant lamp is available in the surfaces terracotta-red, graphite-grey, green and cream-white. The surfaces are matt lacquered. The LED can be dimmed on site with 1-10 volt or push. On request, versions are also available which are dimmable with DALI or which can also be dimmed with an optionally available Casambi module using a smartphone app. The cable length can be shortened if required. Special cable lengths are also available on request. With a Casambi module, it is possible to operate the lamp via smartphone or tablet using the Casambi app via Bluetooth. The Casambi technology also offers the option of switching the light on at specific times via a timer.
