Description

The Marset Cala Metal P145 is a floor lamp for indoor use. It has a total height of 145 cm. The crossed frame is made of black lacquered metal. The cylindrical shade has a diameter of 57 cm and is made of pearl white polyester. The acrylic glass diffusers on the underside and top of the shade prevent glare from the light in all directions. There is an on/off switch on the 200 cm long cable. The floor lamp can be operated with E-27 LED bulbs.
