### Description

The Marset Discoco 88 pendant lamp consists of 35 discs attached to a ball inside the lamp. These discs are arranged on different levels and partly overlap each other. They act as reflectors so that the lamp itself is illuminated. The largest part of the light is emitted directly downwards by the lamp, a part also to the sides. The pendant lamp has a diameter of 88 cm and is available in black/gold glossy, white glossy, beige matt and grey matt surfaces. The cable has a maximum length of 200 cm and can be shortened if necessary. On request, the white version is also available with a cable length of 500 cm. Three halogen lamps or LED Globe Retrofit lamps are suitable as illuminants.
