Description

The Marset Discoco 132 is a pendant lamp with a diameter of 132 cm. It consists of 35 partially overlapping discs which are fixed on several levels. The lamp emits most of its light directly downwards, only part of the light is emitted to the sides. The discs serve as reflectors, whereby the lamp also illuminates itself. This pendant lamp is available in the surfaces white glossy, black/gold glossy, beige matt and grey matt. The three suspension cables are a maximum of 350 cm long and can be shortened if necessary. LED Globe Retrofit lamps can be used as light sources.
