Description

The Marset High Line floor lamp consists of two wooden elements: The upper, vertical element is in oak. The lower element is painted in white. The base is made of black painted iron. The floor lamp has a total height of 189.5 cm. An LED is integrated into the upper wooden element as a light source, which radiates its light onto the wall from where it is reflected into the room. The High Line is infinitely dimmed via a foot dimmer on the supply line.
