

Arturo_Alvarez

Aimei

Technical details

Country of Manufacture	 Spain
Manufacturer	Arturo_Alvarez
Designer	Arturo Alvarez
Year of design	2019
protection	IP20
Scope of delivery	LED
material	glass, steel, wood
cable color	transparent
height adjustment	height determinable
dimming	on site dimmable with a trailing edge dimmer
Wattage	8 W
LED	inclusive
Luminous flux in lm	960
Color temperature in Kelvin	2,700 extra warm white
canopy dimensions	12 cm
total height	200 cm
Dimensions	H 80 cm B 80 cm L 80 cm

Description

The Arturo Alvarez Aimei pendant lamp is made of ash wood. Ash wood is a particularly flexible and versatile material. By means of handcrafted processes, curved and durable surfaces can be produced using this resistant and high-quality material. A spherical glass diffuser reduces glare and spreads the emitted light homogeneously through the spaces between the wooden rods into the room. The lamp is a total of 80 cm high. It has a length and a width of 80 cm each. The pendant lamp is attached to a transparent cable. The nickel-plated steel canopy has a diameter of 12 cm. Including the suspension, the lamp has a total height of 200 cm, the cable can be shortened if required. The light source integrated in the Aimei is an LED with a colour temperature of 2,700 Kelvin extra warm white, which can be dimmed on site with a trailing edge phase dimmer. The pendant lamp is also available on request with a colour temperature of 3,000 Kelvin warm white. A DALI dimmable version is also available on request.
