## **Description**

The height of the Holtkötter Xena pendant lamp can be easily adjusted by pushing it up and pulling it down. The total height can thus be adjusted between 50 cm and 160 cm. A roll-up mechanism ensures that the cables disappear into the canopy and that the lamp always maintains a horizontal position. The lamp is available in three lengths: 90 cm, 120 cm or 160 cm. The pendant lamp emits light both upwards and downwards. The uplight and downlight can be dimmed separately and steplessly via two push-button dimmers on the lamp. When dimming, the light colour changes thanks to the DIM-TO-WARM technology to a warmer tone (from 2,700 Kelvin to 2,000 Kelvin). The Xena pendant lamp is available in bronze, platinum, matt silver, black or anodised brass.
