## **Description**

The Holtkötter Plano T table lamp has a swivelling lamp head and a lamp arm that can be aligned via two joints. The lamp can be adjusted in height between 38.5 cm and 56.5 cm. The mechanism for height adjustment is located in the light rod and is therefore not visible. The LED integrated in the lamp head can be replaced by qualified personnel if necessary. It has a colour temperature of 2,700 Kelvin extra warm white and is regulated by a push button dimmer on the light rod. The last brightness level selected is saved via a memory function and reset when the light is switched on again. The Plano T table lamp is available in white, bronze, matt aluminum, black, platinum and anodised brass.
