Description

The light combination Bover Domita S/20/4L has a diameter of 44 cm. This light combination consists of four individual pendant lights, which are suspended from the canopy in different lengths. The brown canopy has slots for the cables to allow for adjustability and individual placement. Each of the four lamp shades made of completely natural beech wood is carefully finished by hand. The light of the Bover Domita S/20/4L is emitted directly downwards, but also diffusely through the gaps in the mesh of the lampshade and at the same time distributed to the sides. The light sources in the GU10 sockets inside the lamps are replaceable. The total height of this pendant lamp is 157 cm. The black cables of this pendant lamp can be shortened if required.
