

Knapstein

LINN-L128

Oberfläche

- nickel
- black

Technical details

Country of Manufacture	 Germany
Manufacturer	Knapstein
Designer	Knapstein
Year of design	2019
protection	IP20
Scope of delivery	LED
material	metal
height adjustment	height adjustable
dimming	gesture control
Wattage	39,5 W
LED	inclusive
Colour Rendering Index	>90
Luminous flux in lm	4,492
Color temperature in Kelvin	2,700 extra warm white
bulb exchange	at the manufacturer / at the factory
total height	73 - 180 cm
Dimensions	H 3.4 cm B 1.6 cm L 128 cm

Description

The Knapstein LINN-L128 pendant lamp has a length of 128 cm. By lifting or pulling the lamp, the total height can be adjusted between 73 cm and 180 cm. The lamp can also be suspended at an angle. The light is radiated upwards and downwards by this pendant lamp. Using gesture control, it is possible to switch the uplight and the downlight separately and also to dim them continuously. The sensor area for gesture control is located centrally on the top and bottom of the lamp. A wiping hand movement in the sensor area switches the lamp on or off. If the hand is held longer in the sensor area, the desired light intensity can be set. A memory function saves the last light intensity setting and automatically selects it the next time the lamp is switched on.

The LINN-L128 from Knapstein is available in matt nickel or black. A pendant lamp with a length of 161 cm is available from the series. In addition, there are also offered LINN pendant lamps with a height adjustment by stoppers on the ropes, these are available in a length of 68 cm, 128 cm or 161 cm. The LINN is also available in other lengths or finishes on request.
