

Knapstein

THEA-T

Oberfläche

- nickel
- black
- bronze

Technical details

Country of Manufacture  Germany

Manufacturer Knapstein

Designer Knapstein

Year of design 2019

protection IP20

Scope of delivery LED

Projection in cm 52

material metal

dimming gesture control

Wattage 13 W

LED inclusive

Colour Rendering Index >90

Luminous flux in lm 1,700

Color temperature in Kelvin 2,700 extra warm white

lamp stand dimensions 17 cm

bulb exchange at the manufacturer / at the factory

Dimensions H 56 cm

Description

The lamp head of the Knapstein THEA-T table lamp can be individually adjusted with a swivel and tilt joint. The lamp can be tilted at the base of the lamp via a ball joint. The lamp can be switched and continuously dimmed by gesture control. The sensor of the gesture control is located on the lamp head. The lamp is switched on and off with a wiping hand movement in the sensor area. To dim the lamp continuously, the hand is held below or above the sensor for a longer period of time. A memory function saves the last light intensity setting and automatically selects it the next time the lamp is switched on. In the event of a mains failure, the lamp is automatically switched on again if it was previously switched on. It remains switched off if it was also switched off before. This function is suitable for use with switchable sockets. The THEA-T is available in matt nickel, black and bronze effect.
