material aluminum, Iron, methacrylate

height adjustment height determinable

on site dimmable with a trailing edge dimming

dimmer 8.7 W

Wattage LED inclusive **Colour Rendering Index** 80 Luminous flux in Im 610

Color temperature in

2,900 - 3,200 adjustable Kelvin

canopy dimensions 11 cm **Shade diameter** 18 cm Shade height 13 cm

bulb exchange at the manufacturer / at the factory

light distribution directly 200 cm total height

Description

The pendant lamp Tibeta 02 of the Spanish manufacturer Bover has a lampshade made of shiny metallic aluminium. The lamp shade of this pendant has a diameter of 18 cm, is 12.6 cm high and has regular twisted cross grooves. Inside the lamp shade there is a diffuser made of methacrylate, which directs the light downwards without glare. This LED pendant lamp is available in the surfaces antique brass, brilliant copper or with a black chrome alloy. The canopy of the Bover Tibeta 02 pendant light has a diameter of 11 cm. This pendant light has in the surface antique brass as well as in the surface chrome black a black cable, in the surface copper brilliant a copper coloured cable. The cable of this LED pendant lamp can be shortened if required. Hanged in combination to several lights, the pendant light Bover Tibeta 02 can create a practical lighting in the living-dining area or in the restaurant. This on-site dimmable (TRIAC) light changes the colour temperature from 2900-3200 Kelvin when dimmed.
