Technical details

Country of Manufacture	 Germany
Manufacturer	Holtkötter
Designer	Holtkötter
Year of design	2020
Protection class / IP rating	IP20
Contents of the package	LED
Projection in cm	38
material	metal
Height adjustment	height adjustable
dimming	Push button dimmer at the light rod
Wattage	16.6 W
LED	inclusive
Colour Rendering Index	>95
Luminous flux in lm	1,660
Color temperature in Kelvin	Dim to warm
Reflector diameter	9 cm
lamp stand dimensions	25 cm
bulb exchange	at the manufacturer / at the factory
Dimensions	H 120 - 150 cm

Description

The Holtkötter Aura S floor lamp has a metal reflector which can be aligned as desired. This allows the light to be directed exactly to where it is needed. The metal reflector is available in the colours anodised brass, black, platinum and matt aluminum. In addition, the floor lamp is offered in the following surfaces: brass anodised, black, platinum and matt aluminum. The lamp rod and lamp base always have the same surface as the upper part of the lamp head.

The Aura S from Holtkötter can be adjusted in height between 120 cm and 150 cm. The lamp is infinitely dimmable via the push button dimmer on the lamp rod. When dimming, the Dim-to-warm technology used changes the light colour of the integrated LED to a warmer tone (from 2,900 Kelvin warm white to 1,800 Kelvin extra warm white). A memory function saves the last light intensity setting and automatically adjusts it the next time the light is switched on. The Aura S glass with a mouth-blown glass is also available from the series.
