## Description

The Knapstein YUNA-S floor lamp has a swivel and tilt joint that allows the lamp shade to be realigned at any time. The floor lamp can be tilted as desired by means of a tilting joint on the base of the lamp. The lamp shade contains two lamps, one of which emits light upwards. The other emits light mainly downwards and partly also sideways into the room. The two lamps can be switched separately with an on/off switch on the supply line. The YUNA-S is available in black and matt nickel. Its lamp shade is made of high-quality chintz and is available in the colours white, spruce blue and foggy grey. LED retrofit lamps are supplied for the E14 and E27 sockets in the lamp shade.
