Technical details

Country of Manufacture	 Germany
Manufacturer	less'n'more
Designer	less'n'more
protection	IP43
Scope of delivery	LED
material	aluminum, glass, stainless Steel
beam angle	25 - 100 degrees
cable color	black
cable length	200 cm
dimming	Push button dimmer at the light rod
Wattage	4.8 W
LED	inclusive
Colour Rendering Index	90
Luminous flux in lm	600
Color temperature in Kelvin	2,700 extra warm white
lamp stand dimensions	length 25, width 25 cm
Dimensions	H max. 147 cm

Description

The Less'n'more Athene Floor Light A-SL has a lamp base made of matt satin stainless steel. The lamp has a lamp rod and head made of aluminum. The flexible lamp arm can be realigned at any time. The special feature of the lamp head is that the beam angle can be changed between 25 and 100 degrees at any time. To adjust the beam angle, only the glass lens has to be turned out of the lamp head or back in again. With a larger beam angle, the light is distributed over a larger area.

The Athene A-SL floor lamp can be regulated with a push button dimmer on the lamp base. The floor lamp is available in the surfaces aluminum and black. The lamp head and rod are each in the same finish. The flexible arm is bendable up to 9 degrees and offered in these colours: textile black, brown, red, blue, green, anthracite, white or aluminum. In all versions except aluminum, the flexible arm is wrapped with a textile cover. The lamp can also be operated via a USB connection in addition to the conventional power supply. On request, the floor lamp is also available with other colours for the flexible lamp arm or the lamp base.
