Technical details

Country of Manufacture	 Germany
Manufacturer	less'n'more
Designer	less'n'more
protection	IP43
Scope of delivery	LED
material	aluminum, glass, stainless Steel
beam angle	15 - 75 degrees
cable color	black
cable length	200 cm
dimming	Push button dimmer at the light rod
Wattage	4.2 W
LED	inclusive
Colour Rendering Index	90
Luminous flux in lm	450
Color temperature in Kelvin	2,700 extra warm white
light head dimensions	3 cm
bulb exchange	on site itself
Dimensions	H max. 67 cm

Description

The Less'n'more Zeus Wall Light Z-WL is also well suited as a reading lamp thanks to its flexible lamp arm. The flexible lamp arm can be rotated and bent in all directions, allowing the light to be redirected again and again. At maximum extension of the arm, the lamp has a height of 67 cm. The flexible arm is available in these colours: aluminum, textile black, white, anthracite, blue, green, red and brown.

The Zeus Wall Light Z-WL is offered in the following surfaces: aluminum and black. The lamp head and the lamp rod made of aluminum always have the same surface. The wall bracket is made of satin-finished stainless steel. By screwing in or out the glass lens from the lamp head, the beam angle of the light can be changed between 15 and 75 degrees. With a larger beam angle, the light is distributed over a larger area.

A push button dimmer is integrated at the bottom of the Zeus wall lamp with which the lamp can be switched and dimmed. An LED with a colour temperature of 2,700 Kelvin extra warm white is integrated as the light source. In addition to the conventional power supply, the lamp can also be operated via a USB connection. On request, the wall mounting is also available in black or white. The flexible lamp arm is also offered in other colours on request.
