Seventies surface-mounted spot light LED dimmable

Oberfläche

- black
- white

Farbtemperatur in Kelvin

- 2,700 extra warm white
- 3,000 warm white

Technical details

Country of Manufacture	 Germany
Manufacturer	Mawa
Designer	Jan Blieske
Designer 2	Jan Dinnebier
Year of design	2020
protection	IP20
Scope of delivery	LED
material	aluminum
beam angle	30 degrees
dimming	on site dimmable with a trailing edge dimmer
Wattage	25 W
LED	inclusive
Colour Rendering Index	>90
light head dimensions	9 cm
bulb exchange	at the manufacturer / at the factory
Dimensions	H 22 cm

Description

The Mawa Seventies surface-mounted spotlight LED has a cylindrical lamp head that can be rotated by 365 degrees and swivelled by 90 degrees. Thanks to its compact design, the ceiling lamp has no visible screw connections. It is a total of 21.6 cm high and has a lamp head with a diameter of 9 cm. The surface-mounted spotlight is available in the powder-coated surfaces white or black matt. It is also available in other RAL colours on request.

The Seventies ceiling spotlight is available with a colour temperature of 2,700 Kelvin extra warm white or 3,000 Kelvin warm white. On request, it is also offered with 4,000 Kelvin white. This lamp can be dimmed on site with a trailing edge phase dimmer. DALI, 1-10 volt or rotary control versions are also available on request. The colour rendering index of the lamp is Ra >90. On request, it is also on offer with Ra >95, which is closer to natural light (Ra 100).

The Seventies surface-mounted spotlight LED has a beam angle of 30 degrees as standard. With a larger beam angle, the light is distributed over a larger area. Optionally, the lamp can also be ordered with a beam angle of 16 or 22 degrees in the field Order Comment.
