Dimensions	H 28 cm L 16 cm

Description

The Betec Clarus is offered here with a length of 16 cm and a projection of 22 cm (bracket type 22). Its lamp head can be rotated around its own axis and thus ensures glare-free lighting. This lamp is ideal for illuminating pictures, menus and music desks. The high constant light output with low power consumption and extremely long service life are ideal prerequisites for modern picture lighting.

The Betec Clarus 16 cm is available in the following surfaces: glossy brass, matt brass, chrome, glossy nickel, matt nickel, burnished, matt black, glossy gold and matt gold. A mounting set is included, which makes it easy to attach the light directly to a picture or to the wall. As standard, the picture light is offered with a colour temperature of 2,700 Kelvin extra warm white. On request, it is also available with 2,400 Kelvin extra warm white, 3,000 Kelvin warm white or 3,100 Kelvin white. The integrated, dimmable LED is characterised by very good colour rendering with a high colour rendering index of Ra >90. A touch dimmer is offered as an accessory, with which the lamp can be switched and dimmed by touch. Betec offers the Clarus lamp in ten other lengths and with a projection of 11 cm or 17 cm.
