canopy dimensions Length 23 cm, width 4 cm

total height 400 cm

Dimensions B 3.5 cm | L 103 cm

Description

The energy-efficient LED pendant lamp Steng LEDy 103cm is characterised by volume in the material, simplicity in the design and high functionality. This elegant pendant lamp is milled from solid material on precision machines and the metal surface is then refined to a high standard. The lamp is available in the surfaces black matt, satin nickel or glossy nickel. The black matt surface has a fine structure.

This LEDy is 103 cm long. The lamp is also offered by Steng with a length of 143 cm. The lamp profile is 3.5 cm wide and 0.9 cm high. The elongated pendant lamp has a maximum total height of 400 cm, its cables can be shortened if necessary. It has an integrated mini push button dimmer next to the suspension, which is barely visible at the bottom of the lamp housing. With this touch dimmer, the lamp can be dimmed continuously. The integrated light source is an LED, which is available with a colour temperature of 2,700 Kelvin extra warm white or 3,000 Kelvin warm white. On request, the LEDy is also available with 2,300 Kelvin extra warm white, 4,000 Kelvin white or 6,500 Kelvin cool white.
