<b>material</b>	aluminum
<b>Wattage</b>	50 W
<b>LED</b>	inclusive
<b>Colour Rendering Index</b>	>90
<b>Luminous flux in lm</b>	6,700
<b>Color temperature in Kelvin</b>	2,700 extra warm white
<b>bulb exchange</b>	at the manufacturer / at the factory
<b>Dimensions</b>	Ø 59 cm

## Description

The Escale Blade Open 59 cm is a wall and ceiling lamp with an opening inside. This opening is arranged asymmetrically in the lamp. The light of the lamp is emitted indirectly to the wall or ceiling and reflected from this, so that a light effect is created inside and around the lamp. This lamp has a diameter of 59 cm and a depth of 3.5 cm. It is available in the following surfaces: white matt, black matt, silver matt anodised, concrete look, gold leaf, taupe anodised and anthracite. The integrated LED has a colour temperature of 2,700 Kelvin extra warm white. In addition to the Blade Open with opening, the closed Blade lamp is also available.

The Blade Open 59 cm is offered in three versions: dimmable on site with trailing and leading edge phase dimmer, with Casambi module as well as with ZigBee module. The version with Casambi module is dimmed with the Casambi app using a smartphone / tablet via Bluetooth. The version with ZigBee module can be regulated via voice control.

A connection set is offered as an accessory with which two Blade Open or Blade lamps can be connected to a single power connection. With several connection sets, a large lamp can be formed from several individual lamps. The Blade Open can be combined with the Blade. For example, a smaller Blade lamp can be mounted in the opening of a larger Blade Open lamp. A plug-and-play cable with toggle switch is also available as an accessory, with which a Blade Open lamp can also be connected directly to a power supply.
