

Knapstein

MEGGI

Oberfläche

- nickel
- bronze

Technical details

Country of Manufacture	 Germany
Manufacturer	Knapstein
Year of design	2024
depth	7
diameter	30
Materials	Acryl, Metall
Dimmability	gesture control
Power in watts	17 W
LED #	inclusive
Colour rendering index (CRI / Ra)	>90
luminous flux	1904
color temperature (kelvin)	2.200 - 3.500
Protection class / IP rating	IP20
Contents of the package	LED
bulb exchange	at the manufacturer / at the factory
Dimensions	Ø 30 cm

Description

The Knapstein MEGGI is equipped with a sensor dimmer that can be used to switch the lamp, dim it continuously and change the light colour. This sensor is located in the front part of the reflector. Simply swipe the sensor to switch the lamp on or off. The light colour of the lamp can be adjusted to a warmer tone (from a colour temperature of 3,500 Kelvin warm white to 2,200 Kelvin extra warm white). All dimming and light colour settings are saved using the memory function and automatically reset the next time the light is switched on. The tilt and turn joint on the reflector allows the light to be aligned and positioned as required. The Knapstein MEGGI emits indirect light, has a diameter of 30 cm and is 7 cm deep. The rotatable and tiltable reflector of this wall light has a diameter of 15 cm. The Knapstein MEGGI is available in several surfaces.
