Description

The Holtkötter Orbit consists of a round ceiling canopy to which a flat metal ring with recessed diffuser is attached in a decentralised position. The light from this infinitely dimmable ceiling light is emitted evenly and glare-free downwards, while the diffuser ring casts a shadow against the ceiling. Due to its decentralised position on the ceiling canopy, the metal ring appears to float freely below the ceiling. The brilliant colour rendering of the Holtkötter Orbit is guaranteed by a high colour rendering index of Ra>90. Holtkötter Orbit is available in the following surface textures: Aluminium matt, white, black/brass anodised and black.
