

Holtkötter

Avior

Version

- S
- M
- L

Oberfläche

- brass
- platinum
- bronze
- black
- silver

Technical details

Country of Manufacture	 Germany
Manufacturer	Holtkötter
Designer	Holtkötter
Year of design	2024
Materials	Metall
height adjustment	height adjustable
Dimmability	gesture control
LED #	inclusive
Colour rendering index (CRI / Ra)	>90
color temperature (kelvin)	2.200 - 2.850
Protection class / IP rating	IP20
Contents of the package	LED
canopy	36,5 cm x 7,5 cm x 5,2 cm
bulb exchange	on site itself
Dimensions	H 40 - 160 cm

Description

The height of the Holtkötter Avior pendant lamp can be adjusted by pushing it up and pulling it down. The overall height can therefore be adjusted between 40 cm and 160 cm. A roll-up mechanism ensures that the cables disappear into the canopy and that the light always maintains a horizontal position. The Holtkötter Avior pendant lamp emits light both upwards and downwards. The uplight and downlight can be steplessly switched and dimmed separately using gesture control. To do this, a hand is held in the sensor area of the gesture control below the lamp. When dimming, the light colour of the integrated LED changes to a warmer tone (from 2,850 Kelvin to 2,200 Kelvin) thanks to dim-to-warm technology. The last set light intensity is saved using the memory function and automatically reset the next time the light is switched on. Three profile lengths - 82,5 cm (Avior S), 122,5 cm (Avior M) and 162,5 cm (Avior L) - and five different surfaces - anodised brass, black, matt silver, platinum and bronze - enable unrestricted use in rooms of all kinds.
