Pendant /small

Art. No. que s p

Material - corroded steel, 23.75ct gold

Light-bulb - 1 x max 30W E14

Voltage - 220-240 V - 50/60 Hz

Weight - 0.8 kg

Suspension - brass

Ceiling cap - corroded steel

Electrical cable - brown textile lined

Environment - indoor

Packaging - 35 x 23 x 14 cm / 1,1 kg

Pendant / medium

Art. No. que m p

Material - corroded steel, 23.75ct gold

Light-bulb - 1 x max 150W E27

Voltage - 220-240 V - 50/60 Hz

Weight - 4 kg

Suspension - brass

Ceiling cap - corroded steel

Electrical cable - brown textile lined

Environment - indoor

Packaging - 59 x 59 x 45 cm / 7 kg
wooden box - 53 x 53 x 28 cm / 9,5 kg
(extra fee)

Pendant / large

Art. No. que xl p

Material - corroded steel, 23.75ct gold

Light-bulb - 3 x max 150W E27

Voltage - 220-240 V - 50/60 Hz

Weight - 23 kg

Suspension - brass, steel

Ceiling cap - corroded steel

Electrical cable - brown textile lined

Environment - indoor

Packaging - 98 x 98 x 50 cm / 43 kg
(wooden box)

The exterior of The Queen is made from corroding steel, while the inside of the lamp is covered with 23.75 carat gold plate. The spherical gold-plated form creates the illusion that the entire inner surface of the sphere radiates light. Its clean lines and simplicity characterize the shape of The Queen. In turn, the ambitious combination of materials creates a truly impressive image.

In this lamp the most valuable face of metal meets the poorest.

These two surfaces are entirely handmade; the queen's golden shine is guaranteed by the handcraft of expert goldsmiths, while nature draws spontaneous and unpredictable patterns on the rust. No two Queens on earth are the same!
