Descripción

The Ingo Maurer YAYAHO Element 77 lamp has a natural-coloured shade that surrounds the bulb. This element belongs to the low-voltage lighting system by Ingo Maurer and is suspended in the cable system with two supplied cables. The reflector of the element is swivelable. Due to the two counterweights on the ropes of the lamp, the reflector is height adjustable. The lamp is also horizontally movable on the cable system. This system may be stretched from the ceiling or at an angle. The transformer runs by Watch Tronic (an electronic performance control) and a thermal fuse.
