aluminio, porcelana

longitud del cable

135 cm

Ajuste de altura

altura determinada

Atenuación

Regulable en el sitio

Base / Portalámparas

GY6.35

Dimensions

H 12,5 cm | B 12 cm

Descripción

The K-meral SOFI pendant light is more angular than the other lamps from K-meral. With its corners, SOFI breaks through the soft K-meral line and thus receives special attention. The angular appearance also continues in the light motifs. Although the percussions are wide, their shape is sharper and more angular.

The pendant lamp is available with one to four lamps. Their lamp consists of one to four porcelain lanterns and a canopy or a brushed aluminum strip. By simply pushing the coaxial cable into the ceiling housing, the light can be individually adjusted in height (maximum suspension 135 cm).

The lamp is delivered with a 35 Watt (max. 50 watt) halostar lamp by Osram, with an average life of 4000h. The light output from this energy-saving pinhead lamp corresponds to that of a conventional 50 watt low-voltage halogen lamp. The ceiling fan has an integrated, dimmable transformer. Thus, the light is dimmable on site. Each porcelain diffuser measures 12.5 cm in height.
