## Descripción

The Bamboo Vibia 4811 is a floor lamp with 2 lights rods, the smaller rod is 190 cm and the larger one has a height of 270 cm. It is one of the larger floor lamps out of this series. A total of seven efficient LEDs are included in the rods to ensure a direct, localized light emission.

With the protection class of IP66, the Bamboo 4811 - 4815 is well protected against water. It is also dust proof. The design of the light is created from the imagination of Antoni Arola and Enric Rodríguez. Vibia offers the simple, modern lighting in khaki, brown and off-white. Two versions are offered for this outdoor lamp. As a recessed light Bamboo 4811, it is anchored directly into the ground, but in combination with the accessory 4815, it can also be converted to a floor-mounted light.
