Descripción

The stainless steel plate with the lasered out cross makes the Keilbach doormat Swiss a noble and functional eye-catcher. It consists of dense, UV-resistant polyamide fibres with a hard-wearing and non-slip PVC back and a high-quality stainless steel element. This stainless steel element has a material thickness of 2 mm.

The doormat Swiss is a beautiful and at the same time practical accessory for your entrance area and can absorb a lot of dirt and moisture. If required, it can be washed in the washing machine at 30° C - simply remove the stainless steel element.

This doormat is available in two sizes:

large

87 × 57 cm, 0.9 cm thick

small

57 × 42 cm, 0.9 cm thick
