### Descripción

The Serien Lighting Poppy Table lamp was designed by Ulrich Beckert, Georg Soanca-Pollak, Peter Thammer and is also as floor-, wall-, ceiling- and suspension lamp available in our shop. It was designed by Ulrich Beckert, Georg Soanca-Pollak, Peter Thammer and can be equipped with a max 35 Watt low-volt halogen bulb. With this table lamp one instinctively associates a friendly being that turns with interest in the direction of the object to be illuminated.

So much poetry in so little space. The arm is made of flexible aluminum which is textile coated in black or beige. The Lamp shade is made of mouth blown glass in black violet, ceramic or red. The lamellae are bimetalic and expand after approximately 2 minutes, when being warmed by the light.
