<b>Dimensiones del dosel</b>	11 cm
<b>reemplazo de la bombilla:</b>	en el sitio mismo

## Descripción

This Serien Lighting Annex LED pendant lamp has a clear glass shade and a reflector made of opal acrylic glass. It emits its light directly downwards and evenly diffused into the room. Only a small part of the light is also emitted upwards. The lamp is suspended from the ceiling with a chrome-plated steel tube that can be shortened on site if necessary.

The Annex Ceiling LED is offered in two sizes: Medium with a total height of 114 cm and Large with 119 cm. In each size, this lamp is operated with an integrated LED. Depending on the size, the integrated LED has a different output. This lamp is available with a colour temperature of 2,700 Kelvin extra warm white or 3,000 Kelvin warm white. As standard, the pendant lamp can be dimmed on site with a trailing edge and / or leading edge phase dimmer.

On request, the Medium and Large versions are also available as DALI dimmable versions. These require a 5-wire mains supply cable. In addition to this pendant lamp, lamps with other reflectors from the Annex series are also offered. These have a different light distribution.
