El rendimiento del sistema	6 x 0,6 Watt (12 x 128 LEDs) + 2 x LED 7 Watt
distribución de la luz	luz de la habitación
Dimensions	B 40 cm | L 114 cm

Descripción

The Ingo Maurer Flying Flames Set 2 has LED candle elements. These are made of boards whose light is reminiscent of burning candles. LED in the form of two displays with 128 LEDs each with a total of 0.6 watts are integrated as light source. The Flying Flames Set 2 contains six of these LED candle elements in either black, white or red as well as two black or chrome downlights. The elements and the downlights are fixed with magnets to a canopy measuring 114 x 40 cm. The canopy is approximately 5 cm high.

The elements have a height of 43 cm and a width of 3 cm. Via a touch dimmer integrated on the board, the elements can be individually dimmed continuously. The downlights have a height of 12 cm and can be switched and dimmed via a touch dimmer. A memory function saves the last dimming setting for the downlight. The cables of the elements are 200 cm long, the cables of the downlights 250 cm. The cables are height determinable.

The Flying Flames pendant light is also available in other sets as well as on request as a combinable variant, in which different canopies and a different number of elements and downlights are offered. The lamp is also available as a single pendant lamp One New Flame.
