

Keilbach

Fireplace Light my Fire

Ausführung

- libre de
- con parrilla

Technical details

País de origen	 Alemania
Fabricante	Keilbach
Diseñador	Peter Keilbach
material	chapa de acero brillante, se corroe con el tiempo
Dimensions	H 20 cm B 80 cm L 80 cm

Descripción

The fireplace Light my Fire from Keilbach wants to arouse enthusiasm. The design skilfully plays with the geometric figures circle and square.

The fireplace consists of 3 mm thick sheet steel, which is dark and bright in its original state. This corrodes in the course of time and the fireplace gets its individual rust-coloured patina. Light my Fire can be used outdoors all year round without any problems. Even soot, ash and grease cannot harm the deliberately rusty appearance of the fireplace. However, the corroded material leaves traces on the surface.

The fireplace measures 80 × 80 × 20 cm and weighs 31 kg. Light my Fire can be screwed to the surface using existing drill holes. With the optional barbecue rust (42 × 40 cm, 1.5 kg) made of stainless steel, which can be ordered, the fireplace becomes a fully-fledged barbecue.
