## Descripción

The Licht im Raum Ocular Spot 1 Serie 100 Zoom round has a glass lens with diameter of 100 mm. This lens is larger than the lens of the Ocular Spot series and emits more light. The lens can be swiveled and rotated as well as zoomed in and out. The zoom angle allows you to change the beam angle between 50 and 70 degrees. The lens bundles the light and directs it to the desired location.

The spotlight is suitable for wall or ceiling mounting. The holder has a round shape and, like the lamp body, is made of stainless steel. The on site dimmable lamp is offered with the surfaces polished or matt nickel-plated.
