Descripción

The Vibia Algorithm 0835 consists of ten pendant lamps, which hang in a row and are arranged in a zigzag pattern. They can also be combined with other lamps from this series. The suspension of the ten pendant lamps has a length of 214 cm and a width of 25 cm. Each pendulum on this lamp has a length of 120 cm bottom edge glass / suspension. On each pendulum hangs a hand-blown glass with a diameter of 9 cm. The glass mounting is available in graphite surfaces.

The canopy is mounted on the ceiling. Below this hangs the suspension. The distance between ceiling and suspension is freely selectable between 16 - 200 cm. The cable length is set at 120 cm and cannot be shortened. If required, please let us know the desired cable length. A built-in canopy is also available. The designer Toan Nguyen was inspired by geometric patterns from nature for the lamps in this collection. The standard colour temperature of the pendant lamp is 2,700 Kelvin extra warm white. On request, the lamp is also available with 3,500 Kelvin white. The ten LEDs can be dimmed on-site with 1-10 Volt, Push or DALI. A version that can be dimmed via smartphone with Casambi module is also available on request. With a Casambi module, it is possible to operate the lamp via smartphone or tablet using the Casambi app via Bluetooth. Casambi technology also offers the option of switching the light on at specific times via a timer.
